## AT OUR STORE YOU WILL ALWAYS FIND JUST WHAT YOU WANT

And at as low a price as it can be sold consistent with a legitimate profit. We have every article to stand on its own merits, and the **Quality of the Article Governs the Price.** Our desire is and has always been to give to the people the **Very Best Service** and the **Very Best Goods** that can be bought for the money. We study your interest as well as our own, for our interests are mutual, and **Pleasing You is Our Pleasure.**

We allow no misrepresentations and make no claim but that which we have proof to sustain. We couldn't, nor do we claim to sell all the goods, but we do say that **We Have the Largest and Best Assorted Stock of Groceries** in the city; That the **Quality** is the best put up, backed by the manufacturers' guarantee—and prices are at living figures. We don't aim to sell you one bill of goods and stop; **We Want**

**Your Trade;** we need it all for our continuance in business, and we give you what you want. Our customers will testify to that fact. **We Lead,** and don't wait to be led. At this season of the year cold lunches are many times more desirable than a steaming hot meal, therefore it will be of interest to housekeepers to know that we have paid special attention this summer to our Canned Meat Department. It will give us pleasure to show you the dozens of varieties. Come to see us, and we'll prove the above facts.

When you want Flour get the best—it is as cheap and really cheaper, even if you have to pay as much as 50 cents a barrel more, but there is never a difference of more than from 10 to 25 cents, and it pays in the results to pay the little difference.

### **GUARANTEED BALLARD'S OBELISK GUARANTEED**

Has proven that it stands head, and the price now is way down. Try a barrel and be convinced of its excellent qualities.

And so it goes with all other grades of goods. Don't think for a moment that you can get the very best goods at the price quoted on cheap goods—for it won't hold. You had just as well expect your crop to grow and yield heavy results by just putting seed in the ground and never doing anything else towards cultivating. Use the same judgment in purchasing goods you would in doing anything else, especially in purchasing something to eat. **There's Nothing Too Good to Eat.** We want everyone to call and see us; see what we have; see how we sell it; in fact, see how we do business, and we feel satisfied that if you are not now a customer of ours, you soon will be.
